PLANNING FOR STUDENT & STAFF SAFETY

Last year during security and safety planning for the students and staff in the Macomb District, our building administrators contacted several churches, businesses, and the Armory for permission to walk to their sites with our students in the event that we must evacuate a building.

Hopefully, these sites will never be needed, but if an emergency necessitates evacuations, the same radio and TV stations used for severe weather closings as well as The Macomb Journal and The Eagle will be contacted with explicit information regarding the specific site(s) at which parents and guardians may pick up their students. The use of any of the facilities is a temporary measure to be taken only in an emergency situation. District officials will make every effort to have students reunited with their parents/guardians as soon as possible.

To keep our families and the community informed, we want you to know that arrangements have been made to walk to the facilities listed below in the event that an emergency evacuation is necessary.

MacArthur Early Childhood Center students and staff will walk to the Everly Retirement House, located at 811 South Lafayette Street, Macomb, IL.
